

# GHX Fact Sheet: Company Information

## As of 5/15/12

---

<b>Company Overview:</b>	<p>GHX is a technology company that's reducing the cost of doing business in healthcare.</p> <p>We've built the GHX Global Network, the largest business community in healthcare, connecting supply chain, finance and clinical professionals with their suppliers and partners. Through our cloud-based technology, we've created a pioneering platform that's making it dramatically easier for customers to drive cost out of the healthcare supply chain. In fact in the past few years, we've eliminated over \$3B and are on track to eliminate \$5B in 5 years.</p> <p>Today we are expanding our solutions to further enhance data management and allow integration of clinical and business systems, so customers realize even more savings. And unlike others in the market, we don't shift costs but actually eliminate them, so within the GHX Global Network, hospitals stay focused on delivering quality care and suppliers can keep creating new life-saving products for patients.</p>
<b>Founded:</b>	March 29, 2000, by GE, Johnson & Johnson, Abbott, Baxter and Medtronic
<b>Business Areas:</b>	<p>The primary product and service offerings of GHX include:</p> <ul style="list-style-type: none"><li>• Automation of supply chain processes</li><li>• Visibility to supply spend</li><li>• Automation of procurement, content and contract management</li><li>• Creating better business intelligence</li><li>• Enablement of global data standards and synchronization</li></ul>
<b>Mission:</b>	GHX enables better patient care and billions in savings for the healthcare community by maximizing automation, efficiency and accuracy of business processes
<b>Healthcare Supply Chain Savings Enabled by GHX:</b>	GHX and its customers have cut \$1.97 billion in costs from the healthcare supply chain since Jan. 1, 2010, as part of the drive to reduce healthcare costs by \$5 billion over five years.
<b>Ownership:</b>	GHX is now owned by 20 equity representatives of the entire healthcare supply chain, including manufacturers, distributors, providers and group purchasing organizations,

with no owner owning more than 15 percent. This broad industry ownership and participation provide the foundation for expanding the capabilities of the business hub beyond supply chain automation to initiatives that can improve patient care and business performance. Equity owners of GHX include 13 Fortune 500 companies.
