# GHX ResiliencyAI

From Automation to Intelligence:
Building Smarter, More Resilient Supply Chains

Through GHX ResiliencyAI, a proprietary intelligence layer, GHX is scaling AI across the healthcare supply chain with purpose, speed and trust. Its capabilities go beyond automating tasks to enabling a smarter, more adaptive supply chain that's built to thrive in uncertainty and help drive better outcomes for patients.
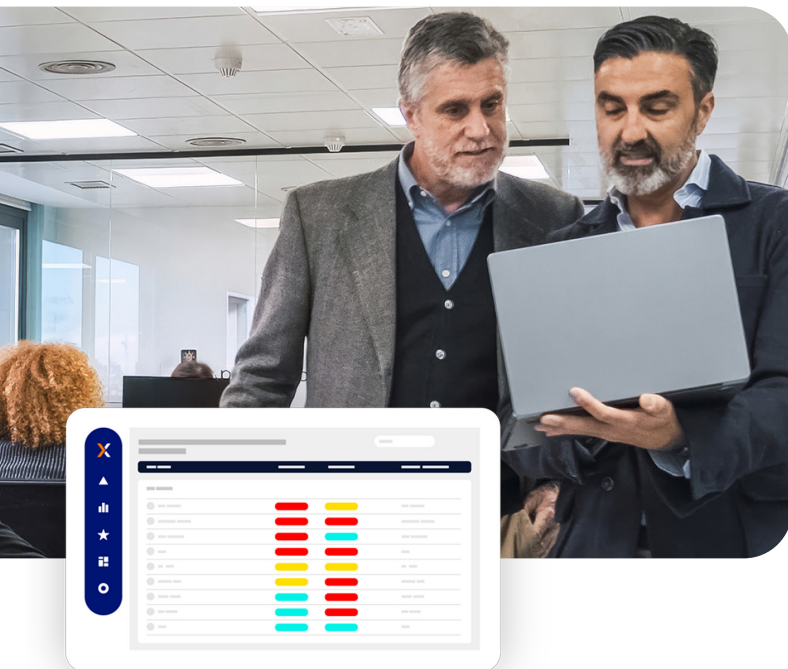

Capabilities Powered by GHX ResiliencyAI

Embedded within GHX's platform and driven by GHX ResiliencyAI, these capabilities are designed to help healthcare organizations better respond to disruption, drive supply chain performance, and improve care delivery.

GHX PERFECT ORDER CO-PILOT

Regardless of budget, scale or experience, operate at higher standards of supply chain excellence.

› Brings generative AI directly into the Perfect Order Dashboard

› Helps transform how users analyze and act on supply chain data

› Surfaces potential root causes, highlights improvement areas, and suggests next steps in near real-time

› Empowers users to accelerate decision-making

› Helps drive measurable performance gains

THE GHX RESILIENCY CENTER

In an environment where backorders can delay patient care, focus on the most urgent potential risks before disruptions occur.

❯ Helps users respond and triage backorders based on clinical and operational impact

❯ Surfaces smart substitution options to support proactive decision-making

❯ Enable faster, more strategic responses from providers to their trading partners

❯ Helps insulate patient care from supply chain risk with improved decision-making

GHX DYNAMIC REPORTING

Because swift and smart decisions require precision, make more impactful change by creating custom reports from your organization's own data.

❯ Helps users reimagine how they interact with supply chain data

❯ Makes it faster and easier to uncover insights that drive smarter decisions

❯ Provides an intuitive, interactive interface for data exploration

❯ Enables teams to explore transactions, exceptions and performance metrics on-demand

❯ Reveals hidden opportunities for efficiency and optimization

Collaborative Innovation Powering Progress

GHX is partnering with customers on the next wave of GHX ResiliencyAI innovation, focused on accelerating outcomes, simplifying workflows, and strengthening coordination across the healthcare supply chain.
