GHX Marketplace

Right Item. Right Vendor. Right Price.

Direct the future of your supply chain from the front end.

An ecommerce solution that enables maximum, sustained cost savings throughout the healthcare supply chain by driving contract utilization at the point of requisition.

Features

- Bill-only workflow
- Formulary management
- Directed Search logic
- Enriched item content with images and supporting documents
- Intuitive ecommerce platform
- Single connection to more than 250 supplier punchout sites
- Rich analytic dashboards

Benefits

- Controlled clinical, commodity and services spend
- Intuitive user experience, enhancing satisfaction and engagement
- Clear and concise reporting metrics and KPIs
- Simple ERP integration with small IT footprint
- Decreases rogue spend, increasing overall compliance and savings
- Simple and accurate search capabilities
- Reduces time buyers spend finding items and placing orders
- Increases visibility into non-compliant spend
- Enables monitoring of standardization initiatives

Increase Compliance

- **Data Quality:** Bridge the gap between data assets (manufacturers, suppliers, GPOs), the ERP and clinical workflows.
- **Price Accuracy:** Drive compliance across the procure-to-pay lifecycle.
- **Transaction Automation:** Create a seamless, enhanced user experience, maximizing supply chain visibility while simplifying the requisition process.

CUSTOMER TESTIMONIAL

"Having one system, having one tool, having it together makes it easier for everyone. GHX Marketplace has an Amazon feel."

Carmen Winfield
Vice President, Supply Chain, McLeod Health
