

DRIVE VALUE AND EXECUTE STRATEGIC SOURCING INITIATIVES

Capacity constraints and competing priorities can derail your sourcing team's best-laid plans. GHX Lumere provides dedicated project management and analytical support to help facilitate and drive savings goals and gain alignment with physicians.

Gain hands-on support from experienced sourcing experts

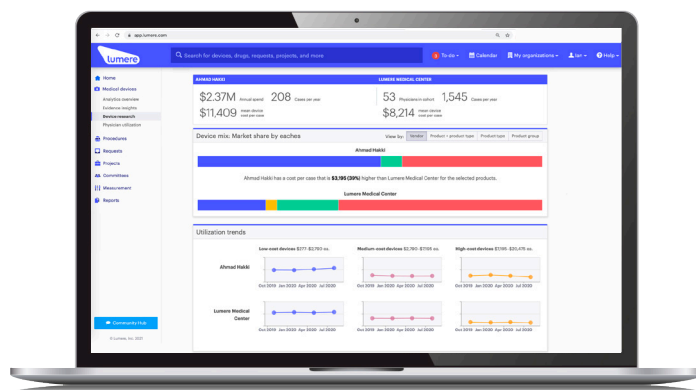

- **Focus on clinically intensive strategic sourcing** and utilization projects that are high priority and high opportunity from identification to completion
- **Build alignment** with physicians to implement your evidence-based strategies
- **Obtain valuable input** on designing requests for proposals and launching program governance

Equip your team for long-term success

- **Develop a roadmap** with the most impactful savings and variation-reduction opportunities
- **Track your historical spend and utilization patterns** and formulate strategies that address both spend and clinical variation
- **Leverage clinical evidence** to support negotiation strategies and align clinical teams on the go-forward decision
- **Measure implemented savings**, pinpoint non-compliance, and course-correct to help achieve financial and operational goals

“We were able to get [a well-known device vendor] in line because they know we are working with Lumere. We will now be able to provide a true apples-to-apples comparison of pricing.”
