

The simple, PEPPOL compliant, web-based order and invoice solution

Be an NHS supplier of choice.
Compliance - **the smart and easy way**

Can't transact electronically? No problem
- **you just need internet access**

> WebDirect The simple, PEPPOL compliant, web-based order and invoice solution

Enabling you to continue trading with the NHS, whilst complying with UK Government e-procurement mandates.

Continue doing business with the NHS – it's make or break time

As part of the NHS eProcurement Strategy, the UK government has mandated that all suppliers, whether you are trading surgical devices or are a service provider, must trade electronically via a PEPPOL Access Point.

Concerned about being compliant?

- Is there a **simple and affordable** way to keep trading with the NHS?
- Is there a solution provider with an **already established** customer base within the NHS, so that I can start transacting electronically with my customers straight away?
- I'm running out of time and I don't have lots of people with the right skills to adopt and implement a new solution. Is there a **quick and easy to set up** compliant solution out there?
- If I spend time and money on getting my business compliant, will there be any **other benefits for me** and my customers?

20+ years

of trusted partnership with the global healthcare industry.

Be part of it.

WebDirect: The simple solution for trading with the NHS

Take steps today to meet future compliance requirements

- Using WebDirect means you transact through a compliant PEPPOL Access Point – GHX.
- Furthermore, you can complement the WebDirect solution with our GDSN-certified data pool and a catalogue management solution for an offering that complies with the NHS eProcurement Strategy.

Trade electronically with your NHS customers today

- 53%+ of acute hospitals are using GHX.
- Receive electronic purchase orders from your NHS customers, and create and send electronic invoices at the touch of a button.
- Automate your business processes with your NHS customers, improve their experience and satisfaction levels by transacting faster and giving them visibility into their order status along with the ability to process your electronic invoices directly in their systems¹.
- Leverage our proven technology, trusted by the healthcare industry for over 20 years.

Drive savings and efficiencies

- Experience the benefits of supply chain automation without a large investment in infrastructure and set-up effort.
- Reduce the time and cost of processing your manual error-prone orders and invoices.

¹ Dependent on the ERP system capabilities.

> WebDirect The simple, PEPPOL compliant, web-based order and invoice solution

Compliant transacting through WebDirect

Simply log in to WebDirect to see and manage all your orders electronically in one place. Creating invoices for every order in the tool is quick and easy. A smart dashboard helps you to easily navigate through the workflow tasks.

What's more, WebDirect doesn't require additional software investment, and your IT staff don't need to learn a complicated new system. Designed for compliant trading with NHS requirements and for users like you, WebDirect is your new way to transact with customers in the UK.

Features at a glance

- **Connected to** a PEPPOL Access Point = compliant with the trading mandate of the NHS eProcurement Strategy.
- **Quick and simple** set up. All you need is an Internet connection and log-in details.
- **Eliminates complexity** – Easy-to-use single sign-on solution for monitoring and managing order-related transactions between you and your customers.
- **Complement WebDirect with other GHX solutions** – a GDSN-certified data pool (Health ConneXion), and catalogue management solution (HealthNEXUS) – for compliance with the NHS eProcurement strategy.
