

VENDORMATE CREDENTIALING INTEGRATE COMPLIANCE WITH YOUR SUPPLY CHAIN

Manage your compliance goals and be prepared for audits when you verify the status of vendors and representatives at entry points. Confirm appointments to minimize disruptions in the day of your staff.

GHX helps healthcare providers across the U.S. hold their supply chains to their compliance standards through a unique vendor credentialing and access management solution. Vendormate Credentialing allows provider organizations to conduct initial screenings and ongoing tracking of vendor organizations and individual representatives for compliance with internal policies and government mandates. GHX links the creation of vendor badges to the current status of the vendor company and the specific representative. You control whether a badge will be generated for an out-of-compliance vendor.

New & Existing Vendors

BENEFITS FOR YOU

- Credential at both levels – vendor representatives and vendor companies
- Stay current with regular refreshes of sanction data
- Integrated badging controls onsite access
- Be prepared for external regulatory audits

BADGING OPTIONS FOR VENDORMATE CREDENTIALING

Current status of vendor representative is shown upon sign-in to your facility

Custom messages shown at login

Printed or mobile badge can also be customized to reflect special needs by facility or department

Vendormate Credentialing in Your Facility

HOW IT WORKS

- 1 Before coming to visit, reps register at login.vendormate.com, provide any required documents, and sign off on your policies.
- 2 Reps sign in when entering your facility. If they meet your access policies, Vendormate Credentialing will print a badge. If not, the system will direct the rep to speak with someone at your facility.
- 3 If you see a rep in your halls without a badge, direct them to the sign-in station to get a badge.
- 4 If a rep has any questions, direct them to www.ghx.com/customer-care or call 888-476-0377.

CUSTOM IN-SYSTEM MESSAGING

REGISTER NOW

It is critical that you register with the vendor program to gain future access to our facility. To register go to <https://login.vendormate.com>.

Inform 1st Time Vendors

Use messages to reach new vendor representatives.

ACCESS DENIED: MISSING DOCUMENTATION

Our system shows that you are missing required documentation. Proceed immediately to the Materials Management Department.

Manage Access Based on Compliance

Control access to your facilities and staff based on the vendor's current compliance.

As of January 1, 2016, all representatives must have an appointment to obtain a vendor badge. Thank you for participating in the vendor program. To modify your profile including contact information, certificates, licenses, please go to <https://login.vendormate.com>.

Require Appointments

Appointment setting can be an effective part of access management and expense control.
